A FEW POINTERS FROM PREVIOUS VOLUNTEERS //

- Do not pack anything that may explode at high or low pressure (examples: jar of jelly, aerosol repellent, sodas)
- Towels and sheets are provided
- No illegal drugs, tobacco, or alcohol are allowed
- It's best to leave your jewelry at home. You should avoid fancy clothes, expensive watches, excessive makeup, wedding rings, etc. These things may attract unwanted attention and tend to distance us from the people we are serving.
- Long skirts, pants, capris, tees; no shorts. You'll attract enough attention already, no need for extra from your outfits.
- Dri-fit, cotton, fabrics that breathe are ideal
- Bluetooth speakers are fun to have in the pharmacy
- Load your iPad or phone up with pre-downloaded shows, movies and music. The Wi-Fi isn't fast enough to stream or download.
- **DO NOT BRING A HAIR DRYER** – we will all know why we have no electricity once word gets out...

MEDICAL VOLUNTEERS //

- We suggest bringing diagnostic equipment, but it is not necessary for you to do so. There is always a risk of loss. At anytime you want to see an in-country inventory of supplies, just ask! We are more than happy to share with you.

MOST IMPORTANTLY, BRING YOUR SENSE OF ADVENTURE, A GREAT ATTITUDE AND AN OPEN MIND AND HEART!
